Blackwood's Edinburgh Magazine, Tory The four Reviews re-published by Messrs. Scott & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogether behind the times in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage by the people of this country, of every creed and party.

[17] BLACKWOOD is unusually attractive at this time, to Americans not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Von Borke, a German officer, chief-of-staff to Gen. J. E. B. Stuart, of the Confederate army.

The Alabama Claims. We have always been of opinion that England was morally if not legally responsible for the damage done by that sea-monster, the Alabama. The ship was built from the subscriptions of two hundred and ninety leading merchants of Liverpool. No secret was made of the fact that she was intended to prey upon the commerce of the United States. The progress of the work of constructing her was daily chronicled in the papers; her launch was attended with eclat, and she was christened the " 290," in compliment to the number of subscribers to the fund from which she was built. Repeated remonstrances were made by the American Consul at Liverpool and subsequently by the American Minister to the Court of St. James. to the Attorney General for his opinion; but that officer, unfortunately, was taken ill on the very day the complaint reached him, and did not recover from the attack until after the "290" had got clear off to sea, where she received her armoment and was rechristened the "Alabama" The duty of the law officers of the Crown was to have seized the ship until the her escape she could not be brought back. That Government possessed the power necessary to arrest and hold the Alabama is shown by its subsequent action with regard to Laird's rams, which were seized in the Mer. by Laird, to the Turkish Government, Isle of Crete. The damage wrought by the Alabama to American shipping is estimated at \$32,000,000; and had not a lucky broadside from an American cruiser sent her to the bottom, it is probable she would have inflicted of a friendly power. The Palmerston Ministry sympathised with the Confederate States in their struggle for liberty; but they did not manifest their sympathy in the manly, straightforward manner that the Derby Ministry would have done. They would not see the infractions of the law until it was too late to prevent them. Then steed had been ridden off. For its wilful shortsightedness the British Government has got to pay, and the illness of the Attorney General has cost the nation \$32,000,000! The whole matter has been laid before Parliament balance remaining after deducting a by Fenians on Canadians, will be paid. Policy (to say nothing of the dictates of common justice) demands that a should not be established when it is within the power of the Imperial Gov-

The telegraph brings us an account of the "famous victory" obtained by that the only foundation for these impressions the representative of Her Majesty s that the "wish is father to the thought." over the band of men who had taken forcible possession of the Grouse Creek Flume Company's ground. It seems His Excellency 'requested an interview with one of the principal men of the Canadian Company. The request was granted, and the Governer informed him that he would " grant a new trial" if the eight men who had been guilty of a contempt of Court would first surrender themselves. With the tempting bait of a re-hearing (which meant, also, a full amnesty for past acts) dangling before their eyes, the gallant eight surrendered. They were taken before the Gold Commissioner, who sentenced each to loss to conceive. Why they should receive three months' imprisonment, and then as upon equal terms of partnership when granted them an appeal to the Supreme Court. After sentence, they were ordered to prison. One only consented to go. The remaining seven refused, point-blank. No effort was made by either the Commissioner or the Governor to enforce the sentence; but at last the refractory seven were induced to enter the cells, with the understand. ing that their cases would be submitted to His Excellency for the exercise of his elemency. In reality, they were coaxed into jail; and then the Governor was "graciously pleased," upon the petition of the inhabitants of Richfield, to remit the term of the sentence to two days' confinement. The claim has been placed in the hands of the Government officers, pending the result of the new trial. But what has become of the gold already taken out is not stated. Secondly, much better spent in local improvements. he granted a new trial when he had no more power to do so than the Tycoon of Japan. Thirdly, the Gold Commissioner could not legally grant an appeal in a case of contempt, the with Great Britain, if there was only manionly mode by which the men could fested a disposition to put our shoulders to come before the higher Court being on the wheel and be determined to accomplish a writ of habeas corpus; and in the it. THE GROUSE CREEK "WAR!" Mob Law Triumphant!

QUESNELLE, Aug. 13-Upon the arrival of the Governor on the Creek he sent for Mr Booth of the Canadian Company. The interview resulted in an arrangement by which a new trial would be granted to the Canadian Company, provided the members of the Canadian Company, for whom warrants had been issued, came forward and voluntarily surrendered themselves and purged their contempt of Court. The following named persoms came before the Magistrate for contempt of Court. John Grant, Fred Littler. George Murdoch, W. Soul, Wm. Lush alias Scott, John Sanderson, Joseph Irving and Austin Ward. They were all found guilty .- Judge Ball passed sentence on each of three months, imprisonment with privilege of appeal to the Supreme Court, fixing bail at one thousand dollars for each. After the sentence they were ordered to prison. J. Grant went, but none of the rest would go. The refractory men were finally persuaded by their friends to submit to the sentence and trust to the elemency of his Excellency. In the course of an hour a petition signed by the inhabitants of Richfield was presented to his Excellency, praying for remission of the sentence, which was at once grant ed, and the term reduced to two days confinement.

The ground in dispute is to remain in in the hands of the Government until the new trial is decided.

PRESENTATION-A meeting of the congregation of St. Paul's, Esquimalt, took place in the schoolroom on Tuesday evening last (Mr Spark, Churchwarden, in the chair) for the purpose of presenting the Rev. A. C. Garrett, Rector, with a purse of \$223, subscribed by his parishioners as a substantial mark of their esteem and respect. The chairman made a few remarks expressive of the regard entertained by all the members of Mr Garrett's flock for their pastor. The reverend gentleman returned thanks in an eloqueut and feeling address, in the course of which he said that while generally friends rallied around one in the time of prosperity, in his case they had been "friends in need," and by their generosity had relieved him of the anxiety consequent upon the heavy expenses incurred during his late severe illness. The reverend gentleman was much moved, and his remarks were frequently applauded. Mr Williams, Churchwarden, stated that in every instance the subscription to the purse had been made freely and with great cordiality. We observe with satisfaction this evidence of the high appreciation in which Mr Garrett's labors are held by those who are directly interested in his ministrations; and hope that he will soon be fully restored to health and enabled to once more occupy the sphere of usefulness he has so long and ably filled.

A Mystery-The body of the colored man found in the quarry-cabin on Salt Spring Island, a few days ago, bears marks of viclence. He was apparently shot to death by some unknown person. The body was found concealed under the flooring, with about six inches of earth shovelled upon it. A person visiting the cabin detected a strong stench. body: An inquest will be held by Mr Morley, J.P. The man's name is unknown; but other colored man in stealing bogs lately, and is thought to have been surprised while carthe body an attempt was made to burn the cabin by (the Indians say) an unknown white man, who was accompanied by a black dog. O'Neil's beat the stream and reach a place "Quintessence of Old Virginny" was capital, and the "Stump Speech" of Graham drew down the house. Mr Sprague, who is the best dancer we have seen here, danced a Mr Smith and Miss Jenny were all well received. We hope the troupe will play again.

OPENING OF NEW SING VERRIN HALL .-On Wedresday evening cext, the Germania ments : Sing Verein will open their new hall with a grand soirce. A fine band has been engaged for the occasion, and the price of tickets (including supper) has been fixed at \$3. The Germanians are noted for the success that has always attended their parties and soirees, and a glance at the names of the Committee convinces us that the forthcoming affair will be no exception to the rule.

PERFORMANCE AT ESQUIMALT-Miss Soledad, an accomplished young actress, vocalist and danseuse, with Mr Tanner, the comedian, and Professor Herman, the magician and ventriloquist, will give a performance at the Crown Hotel, Esquimalt, this evening. The performers are said to be very superior artistes, and will, we hope, be greeted by a full

FINED. - George Booth was yesterday brought before Mr Pemberton and fined £30, a heartless wretch, more a thing of hell with the alternative of six months' imprisonment. The fine was paid. THE HEADWATERS OF THE AMAZON.-An English traveler, W. Chandless, gives an account of his exploration of the Purus river, one of the affluents of the Amazon, which we find in the London Times, as follows :

He was incited to the exploration of the steam by the importance attached to other country. Our rail cars are bigger, it by the people of Southern Peru and and runs faster, and pitch off the track Brazil, as well as by European geogra-phers, who supposed it would form an uninterrupted water communication between the rice provinces of Southern Peru and the Atlantic, via the Amazon. All previous attempts to ascend had been frustrated, not by difficulties in its navigation, but by lack of perseverance and country. Our men are bigger, and longer enterprise. In 1864 Mr. Chandless en and thicker; can fight harder, and faster and upon raising a board in the floor saw the enterprise. Some days before the cis wery of the body an attempt was made to burn the distinct language. The banks are formed of alluvial soil, and are covered throughont with dense forest, rich in india rubber trees and other vegetable products of commercial value. The stream, however, was found not to lead to the settled dishaps the incendiary was the murderer who thought by firing the building to effectually posed. The Indians met with near the had never had communication with white men or civilized tribes, and were ignorant of the use of iron.

In 1865, Mr Chandless undertook a second journey, with the view of ascending might possibly be the navigable river known as the Madre di Dios, flowing from the Andes, east of Cusco. He ascended this stream also nearly to its source, finding it to terminate like the main river, in the midst of trackless forests. He then attempted to cross by land, and howed portunity of fixing his position by astronomical observation that on occasion, when surprised by a rising of the water flooding the sandbanks, the only places on which he could find

Famine is in the South. The gaunt spectre glares in with hollow eyes upon every household. Men, women and children are writhing beneath his ghastly glance. Millions of wailing cries of hunger and starvation sound dolefully upon every breeze. All the blood in the veins of fathers and mothers is turned to tears because they cannot answer the prayers of their wan and pale little ones for bread, the bread they cannot give. Grim Death alone is gorged in that most unhappy

section. Mercy and pity and charity are not extinct in the hearts of our people. Hundreds of movements are made throughout the country, some of them in the most fanatical parts of it, to mitigate the hor-rors of Southern famine. Even the benevolent poor take from their pockets in so holy a cause, what they can ill spare, But lo ! while all these things are done than earth, rises in the American Congress and proposes to wring five hundred millions of dollars from the suffering and perishing section! And by many the accursed proposition is received with favor and section 1 applause! 'Tis enough to shock mankind, and all the devils-except perhaps

BELSHAZZAR IN PARIS .- Alluding to the tion of the prizes, the Tribune says;

One curious incident that occurred just at this moment the cable, doubtless for NORTHERN IMMIGRANTS.—A large number of cances, filled with Queen Charlotte Island tive, omits to mention. When Mr. the printing telegraph, was called up to receive his prize, the Emperor took his hand, making him an exception to all other recipients of medals. Mr Hughes, other recipients of medals. Mr Hughes, as he touched the Imperial finger, slepped into the august palm of his serene Highness a little bit of paper containing the first message received by the cable and printed by the machine for which he was ust being decorated. It contained these vords :

"Maximilian has been shot. His last words were 'Poor Carlotta !" His Royal Serenity read the telegram, and immediately gave evidence of a fear-ful agitation. His check blanched, his hand trembled, and the diamonds on the Imperial garter quivered so in the sunight that a shout arose from the admiring multitude. What the Emperor thought is of course not to be exactly known. But we may conjecture he heard over all the shouts and music, above the booming of guns and the sulvos of artillery, the single shot that was death to his insane ambi tion as to his deluded dupe, the single cry as of a woman-young, beautiful, and good-answering to the last cry of her young husband: "Poor Carlotta!" the Prog eas of the Business from 1826 to 1866.

THE REPORT submitted by the Directors was shortly

as follows:

The Board of Eirectors have again the pleasure of congravitating the Propristors of the Company on its contauced satisfactory progress.

On occasion of the last Annual General Meeting in the
Spring of 1886, the Directors had the pleasure of report,
ing the progress and completion of arrage and important
negotiations—namely, the transfer of the business of the
Ministry and Victoria Oriens, and the successful amaigranties with the Colonial Fire Assurance Company, all
of which brought new connections and varied advantages to the Institution. Debility, from whatever cause arising, may be cured strength, in whatever manner it may have been wasted may be restored by the use of this powerful and healthful invigorant. In May 1806, the satisfactory result of the Quinquental Investigation into the Company's Alfairs, and Division of Profits, as at 18th November, 1856, was reported, when the Company commenced the we keep connections, supported on a broader basts, and full of confidence in the intere, arising from the thorough investigation which its Affirsh had undergone with a successful and satisfactory a suc.

The first year of the new period has been marked, the Birectors have pleasure in reporting, by complete vincers; not only as regards the New Business transacted, but what is equally, if not more, important, the thorough and complete retention of the interests and connections of those Companies whose business was transferred to, or ampligamated with, the STANDARD.

The New Business, however, is perhaps the mos angible exponent of this statement, and the Directors resatisfied to rely on it as the test of their assertion. THE following are the Results of the Business for the

Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted felloweitzens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

Scrofulla AND Scrofulous Complaints.

SCROFULA AND SCROFULOUS COMPLAINTS,

ERREPTIONS AND SERVICE DISEASES, UL-CERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHI-

LITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREAUX,

Debility, Dyspepsia and Indigestion, Eryspeelas, Rose, or St. Anthony's Fire, and indeed the whole class of complaints arising

from Impurity of the Blood.

Entripellas, Rose, or St. Anthony's Fire, and indeed the whole class of complaints grising from Impurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the voins; cleanse it whenever it is ford, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of flextract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painfal disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justl

which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete cradication from the system, the remedy should be judiciously taken according to directions on the bottle.
